INTRODUCING WORK BOAT WORLD

Work Boat World is the leading work boat magazine in the market. Published for 35 years, it covers all aspects of the global commercial and government work boat market, including offshore oil and gas, passenger transportation, tugs and salvage, military security, and fishing and aquaculture. Pilot boats, RIBs/RHIBs, safety, fire and rescue vessels and all manner of smaller craft are also comprehensively covered.

The *Marine Projects World* section takes a look at the world's work boats once they have entered service. It incorporates case studies that provide in-depth, behind-the-scenes coverage of all types of marine projects worldwide, including maritime infrastructure development (ports, terminals, wind farms, bridges, offshore structures etc.), dredging (marine and riverine), land reclamation, salvage, environmental operations, surveys and heavy lift operations.

Readability

Work Boat World is the clear leader in quality of content. Unlike much of the trade press, we are not a magazine comprised mostly of press releases! Our world famous vessel reviews provide in-depth analyses of the latest newbuilds from all corners of the globe, and our team of industry experts ensure our columns, now insightfully covering the offshore, passenger vessel, maritime security, tug and salvage, fishing and aquaculture and other sectors, are timely and relevant. From an advertiser's perspective, you need to be sure your ad is being seen, and it will only be seen if the content surrounding it is what readers want.

Circulation

With 40 years experience in the industry, including trade shows, conferences, publications and online offerings worldwide, Baird Publications has the best network in the business. We know everyone who's anyone worldwide, not just in North America and Europe. Via *Work Boat World*, you can be sure your advertisement will be seen by the industry's decision makers whatever your target market. *Work Boat World* is read by 15,200 readers on average every month, and is growing.

Customers

Join the world's biggest names in the marine industry which have long histories of advertising in *Work Boat World*, including builders (Damen Group, Cheoy Lee, Austal, Incat), designers (Robert Allan Ltd., Skipsteknisk, Incat-Crowther, CintranaVal-Defcar), equipment suppliers (MAN, Rolls-Royce, MTU, Kawasaki, Yanmar, Mitsubishi), operators (Swissco, Eastern Navigation, Zakher), and many, many more.

Conclusion

In short, *Work Boat World* is the most attractive, most popular and most readable magazine on the market. We look forward to working with you to make your business more profitable.
