Oil & Gas Journal Russia is a license edition of the international Oil & Gas Journal since June 2006

Circulation: 10.000 copies

Geographical distribution: Russia and CIS (former Soviet Union) countries

Readership: Top Professionals, Manager & Engineers in Upstream, Midstream & Downstream Operations

Oil & Gas Journal Russia will continue to acquaint its readers with topical information, analysis, reviews and scientific and academic materials translated into Russian from the journal's American version and edited in Russia and the CIS in 2010.

The journal brings regular analysis of the current situation in the global and Russian markets for oil and petroleum products.

Translated articles are selected with the interests of the Russian-speaking community of oil and gas sector experts and Russian companies operating abroad or planning to enter the world's markets in mind.

The reviews and analysis prepared by the parent journal's American editing team and translated into Russian reflect current tendencies in the international and regional markets (refined products, gas and chemical products, LNG, maritime charter, oil and gas field construction services and so on) and draw on the world's oldest and most authoritative statistical database.

The journal has a forum (POINT OF VIEW) for experts to express their own opinions about the most controversial subjects and issues. The quality of the scientific and technical articles published by the journal is guaranteed by the authoritative editing team, which includes well-known specialists on the main areas of the oil and gas sector (from geophysics to hydrocarbons refining and geopolitics and energy diplomacy).

Each issue contains articles and resource packs on a particular subject or range of issues (ACCENT, IN FOCUS, SPECIAL REPORT). We will be expanding the range of resource packs (from two per issue) in 2010 in order to more fully meet our readership's demand in a wide range of professional interests.

Representatives of various branches and sectors of the oil and gas industry and related sectors have the opportunity to state their position on the most burning issues (YOUR OPINION). Information about the latest oil and gas equipment can be found in the relevant sections.

Each issue is presented at one or more events such as exhibitions, conferences and forums in Moscow, Russia's regions and neighboring countries. Resource packs and selected articles will be planned with the most representative and important events in mind.

Issues	Events / Bonus Circulation	
<p>Nº 1-2/ February 10th</p>	<p>Ekaterinburg, February 16-18 Neftegazsnab, Moscow, March 16, www.n-g-k.ru Getenergy Village, Moscow, March 4-5th www.vostockapital.com GEOTECH 2010, Moscow, March 30- April 02</p>	<p>From the first issue we begin the publication of annual reviews of different industry domains. Accent of the issue: «Geology and geophysics»: Articles on new technologies and equipment. Comments of experts (surveys) in geology and geophysics Accent of the issue: «Transportation and logistics»: articles on the issue of exploitation of the oil terminals, logistics, cargo assessment, evaluation of risks, etc. Comments of companies (surveys) on this issue. And also: – final analysis of the world oil and gas industry 2010: current tendencies and forecasts in the domain of production, drilling, processing and pipeline transportation.</p>
<p>Nº 3/ March 12th</p>	<p>Expo-Russia Jordan 2010, March 24-26th GEOTECH 2010, Moscow, March 30- April 02 Neftegazsnab, Moscow, March 16, www.n-g-k.ru Seminary Vostockapital, Moscow, March 15-16 www.vostockapital.com Seminary Vostockapital, St-Petersburg, March 18-19 www.vostockapital.com 7th Russian Energy Forum entitled the Russian Fuel & Energy Complex in the 21st Century (Moscow, April 5-8) 10th Fuel & Energy Complex, St-Petersburg, Varch 24-26</p>	<p>Accent of the issue: «oil processing and petrochemistry»: <ul style="list-style-type: none"> ● Articles on catalysts, modern equipment and other actual issues. ● Annual overview of oil-refining technologies and industry condition in the world (OGJ) Survey on actual challenges of oil-processing and petrochemistry Accent of the issue: «Transportation of specific and oversized cargo»: avia, auto, railway transportation, out-of-the-way regions, shelf, specific tanks, platforms, loaders and transport facilities. And also: – final analysis of the world oil and gas industry 2010: current tendencies and forecasts in the domain of production, drilling, processing and pipeline transportation.</p>
<p>Nº 4/ April 10th</p>	<p>Refining & Petrochem Conference (RPEC), EPC, Moscow, April 19-20 BBTC, EPC, Moscow, April 21-22, www.europetro.com Siberia -2010 (GEO-Siberia) Novosibirsk, April 24-26 Sibneftegas-2010, Novosibirsk, April 24-26 Atyrau Oil & Gas, May, www.expo-kz.kz Pipeline Transport, Moscow, April Argus LPG 2010, Moscow, April, www.argus.ru Geology, Tomsk www.t-park.ru</p>	<p>Accent of the issue: «Pipeline transportation and pipeline construction»: <ul style="list-style-type: none"> ● Global statistics and analysis of pipeline construction (OGJ). ● Materials and equipment for pipeline construction (metals, specific hardware and pipes) Professional commentaries (survey). In the focus: «the Caspian region»: – Development of seaport infrastructure in Kazakhstan – Oil transportation from the Caspian region And also: <ul style="list-style-type: none"> ● Overview of modern world drilling technologies (OGJ). ● Oil processing in Azerbaijan </p>

<p>Nº5 / May 10th</p>	<p>Himia. Oil. Gaz 2010, Minsk, May 25-28 Gas.Oil.Technologies -2010, Ufa, May 25-28 OGU Tashkent Paradigm, seminar, May, Moscow, www.pdgm.com Oil and Gas Sector Equipment Standards (Standartneftegaz, May, Moscow) Oil & Gas 2009 Kazakhstan, biennial (May 28-30, Astana), www.kazakhas.kz Ros-Gas-Expo St Petersburg, June 6th international conference Offshore Upstream, RPI, Moscow, www.rpi-inc.ru 17th Caspian Oil & Gas exhibition and conference, Baku, June</p>	<p>Accent of the issue: «Borehole technologies» - high-tech methods of intensification of oil production using modern borehole equipment (OGJ)</p> <ul style="list-style-type: none"> ● Automation of processing facilities. ● Standardization and technical regulation in oil and gas industry <p>Professional commentaries (surveys) on personnel</p> <p>Accent of the issue: «Shelf». - Foreign experience. Russian projects. Drilling and exploration offshore projects. Foreign and Russian offshore technologies.</p>
<p>Nº 6/ June 14</p>	<p>Neftegas 2010, Moscoe, June 21-25, www.neftegas-expo.ru MIOGE 2010, Moscow, www.mioje.ru</p> <p>Traditionally the thickest magazine with broadened content.</p>	<p>Accent of the issue: «Oil services»:</p> <ul style="list-style-type: none"> ● Oil service market in Russia and the CIS, world tendencies, ● Geophysical, drilling and enhancement of oil recovery services, ● New solutions and equipment, ● Attendance of field facilities, etc. ● Survey of the companies, which operate in Russia. <p>Professional commentaries (survey) on this issue. And also :</p> <ul style="list-style-type: none"> ● Global Statistics and analysis of the construction of new facilities: oil refinery, petrochemistry, pipelines, LNG, synfuels, etc. ● Global overview of LNG market. ● Geopolitics, energy strategies, major projects. ● State regulation, legislation.
<p>Nº 7/ July 15th</p>	<p>RAO/CIS OFFSHORE 2010, S.Petersburg, www.rao-offshore.ru Oil. Gaz. Himia. 2010, Saratov, August Tyumen, September Sigold, Yuzhno-Sakhalinsk Vniigaz' confernce Geomodel 2010, Gelendzhik, September, www.eage.ru</p>	<p>Accent of the issue: «Geology and geophysics. Exploration. IT-technologies».</p> <p>Professional commentaries (survey) on actual challengies and problems in the sphere of oil geology and geophysics.</p> <p>State regulation of exploration works: foreign experience and Russian innovations.</p> <p>And also:</p>
<p>Nº8/ August 15th</p>	<p>RAO/CIS OFFSHORE 2010, S.Petersburg, www.rao-offshore.ru Oil, Gas Petrochem, Kazan Fuel & Energy Complex (September 15-18, Tyumen). Sigold Vniigaz' confernce</p>	<p>– Materials about Sakhalin, perspectives.</p> <p>– Perspectives: Arctic and shelf exploration of Russia and the CIS states.</p> <p>– Oil processing in Europe.</p> <ul style="list-style-type: none"> ● Global gas processing statistics and analysis. Tendencies and forecasts in the light of new gas processing facilities construction projects and new transportation facilities (foreign article in translation) <p>– Oil sand and heavy oil, how international companies solve these problems.</p>

<p>№9/ September 9th</p>	<p>KIOGE 2010, Almaty RPTC/RRTC, Refining & Petrochem Technology, Moscow, September, www.europetro.com KHIMIA, Moscow Orenburg Oil & Gas, Petrochemicals, Power 2010 (September 22-24). CITOGIC 2010, Kazan, September Tyumen Gelendzhik, Gazprom, October, www.oeg.ru Surgut Irkutsk/ Krasnoyarsk Kongress, September Conference. Oil and Gas 2010, Yuzhno-Sakhalinsk, October</p>	<p>Accent of the issue: «Pipe market in Russia»:</p> <ul style="list-style-type: none"> ● The latest tendencies and analysis of the pipe industry ● Technology and materials, metal, certification. ● Competition with foreign suppliers. ● Professional commentaries (survey) on pipes. <p>And also:</p> <ul style="list-style-type: none"> ● Modernization of Russian refineries, quality enhancement according to the world standards. In the focus – technologies and hardware for Russian oil and gas industry, petrochemical facilities. ● Global statistics and overview of ethylene production facilities. ● Major projects and urgent problems of oil and gas industry in Kazakhstan Central Asia and The Caspian region. <p>– The view from the US: present state-owned oil companies in the world.</p>
<p>№10/ October 8th</p>	<p>SPE 2010, Moscow, October GasSuf 2010.
