Banner advertising Advertisement homepage - centre (random rotation)

Your banner will be published in the centre of the homepage of the EER website. Depending on the amount of banners (maximum is 5), the banner ads will appear in random rotation for 3,5 seconds.

The screenshot shows the homepage of the European Energy Review website. A circular callout highlights a banner advertisement for CASTEL. The banner text reads: "Join the power", "Under the invitation of 'Join the power', Castel Communication Group has more than ten years experience in the energy market. Mostly, this means we pass on the power of our communications to our clients. That is our job, after all. And this makes it all the more impressive that a number of our highly-valued business relations decided to join us in launching the 'European Energy Review'." Below the text is the CASTEL logo and the website URL: "Join the power: www.europeanenergyreview.eu". A red circle at the bottom of the callout contains the text: "Add your banner in the centre of our homepage".
