Text advertising Announcement section

Your message will be published in the Announcement section of the E-newsletter. This email newsletter appears every Monday, Wednesday and Friday and is sent to our database, which currently consists of more than 25,000 energy professionals and is being expanded daily.

The screenshot displays the website's layout. At the top, it reads "The independent platform for the energy sector" and "EUROPEAN ENERGY REVIEW". Below this is a welcome message and a "Report" section for "EU climate strategy" dated Monday, 1 March 2010. The main article is titled "The Brussels climate train rolls on" and discusses the European Commission's vision of "global climate leadership". A red callout bubble highlights a section titled "Announcements section" which lists a conference: "3 March 2010 - Brussels, Belgium Conference: Challenges for a European energy security policy for gas". It lists speakers including Günther Oettinger and Jean-Armand Wignas. Another red callout bubble points to a "Highlight your message in the Announcement section of our newsletter" button.
