

Sponsor an Offshore Webcast– Reach your target audience

Webcast sponsors reach a select group of high-level decision makers within very targeted audiences.

Position your company as a leader in this important market place.

JANUARY WEBCAST: High-Pressure/ High-Temperature (HP/HT)

High-Pressure/High-Temperature (HP/HT) wells involve high-risk and high-cost challenges throughout all operations associated with the drilling and completion process, including well construction, well control, riser design, subsea equipment engineering, and materials selection. In this webcast, industry experts discuss real-life solutions to some of the challenges presented by HP/HT operations.
