SUPPLEMENTARY DATA
 This is an analysis of 43,971 or 99.9% of respondents who recipients recommend, specify or approve types of equipment or services (See question #4 on the questionnaire used to elicit these data on the back of this report). Since any one respondent may have checked more than one response, the totals of each of these types of equipment or services should not be added together as the total may exceed the total circulation. These data are presented for statistical and marketing purposes.

SUPPLEMENTARY DATA
 This is an analysis of 43,951 or 99.9% of respondents who recipients recommend, specify or approve the purchase of equipment or services (See question #3 on the questionnaire used to elicit these data on the back of this report). Since any one respondent may have checked more than one response, the totals of each of these types of equipment or services should not be added together as the total may exceed the total circulation. These data are presented for statistical and marketing purposes.
